

DIGI WR-44

COMMERCIAL GRADE WI-FI

The **Digi TransPort WR44** cellular router is an all-in-one branch networking solution with true enterprise-class routing, security and firewall. This multifunction cellular router features a flexible design with integrated Wi-Fi access point, USB, serial, 4-port Ethernet switch, with an optional serial expansion card.

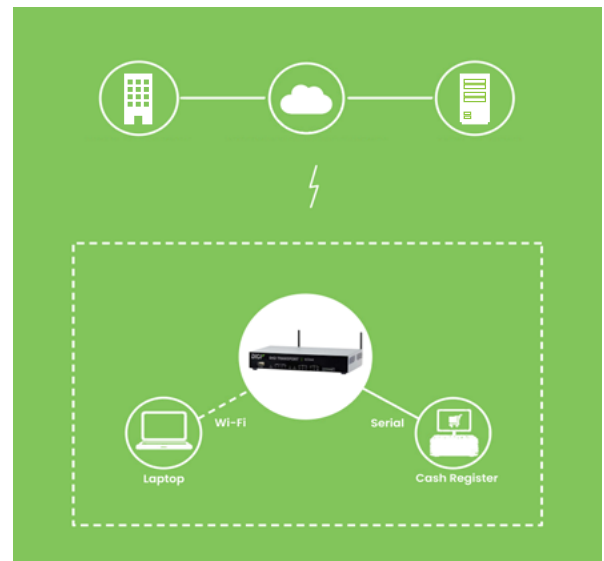

The Digi TransPort family offers an advanced routing, security and firewall feature set including stateful inspection firewall and integrated VPN. Enterprise-class protocols incorporate BGP, OSPF and VRRP+, a patented technology built upon the popular VRRP failover standard providing true auto sensing, auto failure and auto recovery of any line drop.

Digi TransPort WR44 is ideal for retail and utility applications. Flexible power options include 9–36 VDC barrel or Molex connectors for direct integration into DC power supplies. Digi Remote Manager® provides easy setup, configuration and maintenance of large installations of Digi TransPort and third-party devices.

BENEFITS

- Enterprise class cellular routers with advanced dynamic routing, security and firewall features
- High speed cellular interfaces: HSPA+ and 4G LTE
- Optional integrated 802.11 b/g/n; a/n Wi-Fi access point and 4-port Ethernet switch
- Flexible interfaces including serial with DC power options
- Powerful integrated end user programming
- Digi Remote Manager® provides mass configuration, device management and troubleshooting tools
